

DOE Hydrogen Program Record		
Record #: 8013	Date: November 18, 2008	
Title: Air Quality and Population		
Update to: Record # 5017		
Originator: Tien Nguyen		
Approved by: Sunita Satyapal	Date: November 19, 2008	

Item:

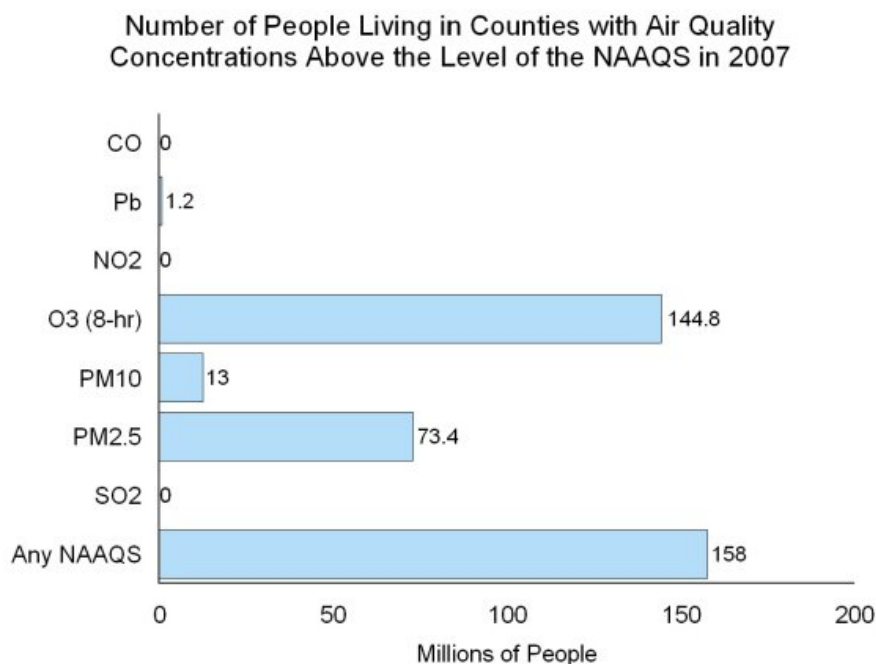

“Air quality is a major national concern. It has been estimated that about 50% of Americans live in areas where levels of one or more air pollutants are high enough to affect public health and/or the environment.”

References:

$$158,000,000^a / 305,685,570^b = 51.2\%$$

Despite great progress in air quality improvement, approximately 150 million people nationwide lived in counties with pollution levels above the National Ambient Air Quality Standards (NAAQS) in 2007.^a
